Analytical thinking · Structured way of working · Fast onboarding · Technical understanding · Driving licence class B

PROFILE

IHK-FOSA certified application developer (Fachinformatiker für Anwendungsentwicklung) with hands-on experience in ERP, application support, and data integration. Skilled in SQL-based error diagnosis, data process optimization, and user support. Working knowledge of Microsoft SQL Server, SSIS, and KNIME, as well as BMEcat/XML and EDI/EDIFACT.

WORK EXPERIENCE

IT Application Support / Application Support Jun 2023 – Nov 2026
Data 5 Infrastructure Technologies GmbH, Frankfurt am Main

- Supported ERP and SaaS applications in technical support
- Used SQL to narrow down data and system faults
- Diagnosed issues from logs, system data, and error messages
- Processed and tracked support tickets through to resolution
- Advised users on application-related questions
- Documented fault patterns, root causes, and fixes
- Coordinated with development teams on complex incidents

Continuing Education & Self-Study Oct 2022 – May 2023

- Focused study of ERP data processes, SQL, and IT application support

ERP Data Management & Master Data Maintenance Jan 2021 – Sep 2022
R. Pöppel GmbH & Co. KG, Memmingen

- Maintained, updated, and quality-checked ERP article master data
- Prepared and quality-controlled product data in PIM systems
- Monitored ETL data processes built with SSIS
- Used SQL to check data stocks and data flows
- Imported and quality-checked EDI/EDIFACT and BMEcat/XML data

IT Support / Backend Support Mar 2017 – Jun 2018
M-PRIME, Marrakesh, Morocco

- Tested Java-based backend applications and REST APIs
- Carried out technical fault analysis, documentation, and coordination with development teams
